MADE BY SAILORS, FOR SAILORS

ON THE HIGH SEAS COMPROMISE IS NEVER A WELCOME CREWMEMBER

If you ask us, trusting Mother Nature to carry you safely across the seven seas is a lot easier with top of the line components on board.

The BSI Group provides you with a unique selection of no-compromise, specialist equipment for cruising, racing, and super yachts from the most dedicated brands in the business. We love every aspect of sailing. It's what drives us, and in all modesty, we like to think that that comes across in the quality and design of the products and brands we offer.

Perfection is a journey, not a destination

Our goal is, and has always been, best-in-class products with the strength to handle anything a raging sea can throw at them, without compromising control or speed. Employing the latest materials and innovative technology, our experienced sailors and dedicated craftsmen are never done exploring new ways to improve, tomorrow, upon the absolute best solutions we can make today.

SUPPERIOR RIGGING SOLUTIONS FOR THE WORLD'S BEST YACHTS

BSI Rigging is a world leading manufacturer and supplier of rod, wire, fibre rigging and components to the marine and architectural markets.

BSI Rigging designs, engineers and manufactures superior rigging solutions featuring high-strength steel alloys, composites and materials for all types of yachts and superyachts around the world. New-build and refit for superyacht and custom projects for vessels up to 125m and OEM boats up to 37m. BSI A/S designs, engineers and manufactures all rigging components in-house and currently supplies 85% of the rod and wire rigging for European OEM's.

FIRST AND FOREMOST, FOLDING PROPELLERS BUILT FOR SPEED

GORI Propeller design and manufacture some of the world's most efficient and manoeuvrable folding propellers for yachts.

First introduced on the world market in 1975, GORI Propellers has gone on to build a reputation without parallel throughout the industry due to its low water resistance, effective manoeuvrability, and the patented single drive, and overdrive technologies. GORI Propeller supplies a full range of folding propellers and custom-made propellers for commercial projects all over the world.

THE STEERING SYSTEM OF CHOICE FOR SERIOUS BOAT BUILDERS

JEFA Steering systems have become the steering system of choice for the biggest production yacht shipyards in the world.

Since 2001, JEFA Steering has rocked the boat business with its innovative steering solutions that have grown to become the steering system of choice for the biggest production yacht shipyards in the world. Today, the company continues to provide professional shipbuilders with a full range of best-in-class mechanical steering parts as well as a full range of modern autopilot drive units with a well-deserved reputation as the most advanced, light running, and power economic autopilot drives in the world.

HIGH QUALITY MARINE HATCHES AND PORTLIGHTS

For more than 30 years, Moonlight has maintained a position as the top brand in high quality marine hatches and portlights.

The strategy and strength behind is simple: they do everything themselves. From concept and design, through careful selection of materials, rigorous quality control, and down to the finishing touch before the product is shipped, a formula that has earned Moonlight an impressive list of maritime clients.

BEST-IN-CLASS ROPE CLUTCHES, BLOCKS AND KICKERS

Easy products are manufactured by BSI in Haderslev, Denmark.

For more than 30 years, we have delivered best-in-class rope clutches, blocks, and kickers for cruising and racing sailboats all around the world. And the easy to install and extremely durable design has proven itself time and time again in worst-case conditions at sea.
